LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Pernambuco, April 10th

News by R.M.S. Tagus to 24th ult says that the revolt in Basutoland is unimportant, as all the principal Chiefs hold aloof.

At the annual festival of the Invalides in St. Petersburg, the German officers present were enthusiastically received. Czar toasted Emperor William in glowing terms.

Santiago (Chile) 4th.

Cabinet is now:—
Balmaceda, Interior.
L. Aldunate, Foreign.
Vergara, Justice
Cuadra, Finance.
Castellon, War.

Montevideo, 10th.

Italians digusted with Volpi arrangement. Caballero Sanchez business coming to front now. Said that Paso Hondo affair is arranged on same terms as Volpi and Patroni. Rumour of another case of torture at San Jose; Spaniard beaten black and blue by a policeman and his mother-in-law.

All Italians are to be dismissed at once from the Oriental army, and no Italian will in future be eligible for any public post.

Santa Fe, 10th

Alarm here. Troops confined to barracks, all about a colonist named Iturraspe appearing in the streets. Piquet sent out; colonist wounded in the hat, and order completely restored.

Montevideo 11th

There is something queer about the Volpi arrangement.

Opposition papers say it humiliates the country. The *Italia* says its countrymen are discontented:

Everything conspires to keep up the agitation.

Judge refuses to let Barreto out on bail.

TRIP TO UPPER URUGUAY.

LETTER II. *)

We arrived at Paysandu on Wednesday morning at 10 a.m. and, as the Jupiter was filled with cargo that had to be transhipped with the passengers to the smaller steamer Iris that lay in port awaiting us, Mr Fernandez proposed we should go ashore and have a look at the town. Paysandu, seen from the river, presents a gay and pleasant appearance. The Sacra Saladero is so close that it almost merges with the chacras: it is now working hard, as also the fine saladero a little lower down, called Casa Blanca, the property of Mr Libaros, who lives with his family there. The little steamer from this establishment boarded us and took off Mr Russell to spend the holidays.

It was about noon when we landed at Paysandu. Mr Penard, who acted as our guide, really knew as little of the place as of Nahuel Huapi. I recognized the splendid deposits of Messrs Hufnagel and Plottier, an edifice more prominent on the beach than even the Custom House or the Steamboat Hotel. One or two large vessels lay off the Hufnagel mole, and some eight or nine foreign vessels rode at anchor in the harbour. We walked up the principal street, picking our way as best we could in the mud, and at last came to the church, which is a new edifice built by the Italians and close to the river. Soon we descried the tramway which connects the port with the town, a distance of about a mile and a half, nearly all built on. We had hardly taken our seats in the car when we were about to be turned out, Mr Penard, who acted as banker for the party, having nothing but gold or paper. Thanks to the kindness of Mr Tallon, who had come up with us in the steamer and who was bound up for Salto to marry Mr Bowring, we found the small silver coins required, and we all rode in the tramway to the utmost limits of the town at a place called the Plaza de Frutos, where the coach stopped, and a neatly dressed Basque woman invited Don J A Fernandez to go up on top of the roof of her house to have a view of the surrounding country. She showed the new cemetery, the barracas and the river, but Dn J Antonio would not go up on the roof. We now returned in the tram and drove through the middle of the town, passing principal church in the Plaza which was knocked down by the Brazilians some seventeen years ago, and is now rebuilt; the Brazilians may be proud of their gunners, as the distance to the anchorage of their gun-boats must be close on half a league. The Plaza is neatly laid out green, shady and looks pleasant; the houses are all 'azotea', and some of them neatly finished and with beautiful patios studded with flowers. It is of course hard to judge of a place at a first visit and from the seat of a tramway car. Paysandu reminded us somewhat of Greenock, eliminating the mills, factories etc; both places we saw from tramway cars; and this of itself creates in the memory a resemblance. We drove back as hard as the horses could take us to catch the Iris now whistling in the offing, and just as we left the tram, we met Mr Vernet, the leading ship broker of the town, who has a neat office under the Steamboat Hotel, and appears to be as busy as his confreres in Buenos Aires. As we hear, last week, 12 vessels were chartered in Paysandu, and much business in the maritime line appears to be going on down there. Mr Vernet showed us what point the river some three months ago reached, covering the whole plateau and invading the houses; not for years and years before had they such an innundation. When landing, it was our wish to visit the spot where the hero of Paysandu, Leandro Gomez, was shot, to inspect the garden, the wall and the ground where he fell, but our compañeros evidently cared little for such memories, and we were pushed so hard for time that it was impossible to do more than we did.

Paysandu, however, is the centre of a very rich district and possesses more elements than to the tourist are apparent. Mr Kemsley considers that Paysandu is a place of greater wealth and business than Salto, which much surprised us. All the statistics obtainable about the place Master Alfred Bean, who accompanied us in our trip, recorded. Whatever makes up a town, whether shops, population, or chacras, Paysandu has, yet somehow it looks to us at a sort of stand-still epoch, and we incline to think that in former years it had more people and more business.

We saw Dr French's house from the tram and regret we had no time to call on him; also the fine stores of our old agent Dn Miguel Horta, and had the Iris stopped, we should have called to see the English dry goods store and left a card for Mr Chaplin, but in the Uruguay the Captain and Purser wait for no man, and after trudging over a half built mole we gained the boat and pushed off for the Iris.

Judge Gil is the Assize Judge of Paysandu, and to aid him in his duties there are 4 lawyers, 5 escribanos and 10 procuradores, which speaks for the litigation going on. Paysandu boasts of 3 large wholesale almacenes, 2 shipbrokers, 6 barracas, 5 boticas, 7 merchants, 2 brewers, 4 confiterias, 3 cigar shops, 1 photograph gallery, 2 meat and tongue factories, 3 hardware shops, 8 hotels, 2 book shops, 3 furniture stores, 3 bakers, 4 auctioneers, 2 hatters, 4 tailors, 7 tiendas, 3 shoemakers, 'voila tout'.

The estancia lands about Paysandu are each day improving in value; both sheep and cattle do well on them; we passed in the steamer the fine estancia of the Messrs Peel nephews of the great Sir Robert, and we saw on the top of a cliff that commands the river the far famed estancia of Mr J Mohr Bell, merchant of Buenos Aires, and now rented to Don Lucas Fernandez. We have yet much to say about the estancia lands of the Banda Oriental, but, not to fatigue our readers, we hold our remarks for another chapter.

*) The first letter of this correspondence was posted in Salto on last Thursday and has not yet been delivered. Written on the spur of the moment, it is difficult to re-write it, and Mr Alfred Bean holds the notes.

TREASURY BONDS.

PETITION OF THE HOLDERS.

Mr Forrester has favoured us with the following documents in reference to the amortization of Treasury Bonds recently decreed by the Government; he presented the petition to Minister Romero some days ago, and H.E's. answer will be looked for with keen interest, as the credit and good faith of the country appear to be questioned by the European holders of its Treasury Bills.

THE ANGLO SOUTH AMERICAN AGENCY (LIMITED).
14 Great Winchester Street.
London E.C. Feb. 18th, 1882.

Matthew Forrester Esq.

Dear Sir,

As is doubtless well known to you, a very large amount of the 9 per cent Argentine Treasury Bonds are held in this market, I am told at least $4,000,000 out of the $5,000,000, and as you will have seen by the English papers, very widespread dissatisfaction is expressed on all sides at the way in which attempts are being made in the Argentine Republic to tamper with the law under which the Bonds were issued.

The Bonds were issued at a time when the credit of the Republic was at a comparatively low ebb and the law no doubt expressed the only conditions under which the Government found it possible to raise the funds that were required. It is manifestly unjust, therefore, on the part of the Government to take advantage of the present high credit which the Republic enjoys in order to benefit itself to a small extent by depreciating the property of those who supported the Government in troublous times. This is the popular view of the question here, but other practical and legal opinions all incline to differ with the subversion of the law as now attempted. Such tactics touch very hardly the credit of the Republic, and as a consequence people continually say: 'South American Stocks? Argentine Bonds? Don't touch them, your money is never safe, the Governments are always breaking faith, or there will be a revolution or something.'

All this must be well known to you, who are so well posted in Argentine matters, and you I am sure must feel that the Government by acting unjustly is injuring itself.

Remembering the kindness with which you presented the petition respecting the Argentine Hard Dollar Loan, several of the largest holders of the Treasury Bonds have called upon this Agency with the request that we would endeavour to enlist your good offices and ask you to kindly present, as you did before, the accompanying Memorial and Letter to His Excellency the Argentine Minister of Finance.

We are given to understand by the London and River Plate Bank and also by the Secretary of the London Stock Exchange, that they have also written protesting against any breach of faith on the part of the Government.

We therefore hope that you will be able to comply with our wishes, your self if possible, and that the Protest will meet with a favorable reception.

In this hope we thank you in anticipation for your kindness and in the meantime.

We beg to remain,
Dear Sir,
Yours faithfully,
(Signed) *J Cecil Bull.*
Secty.

London 28th Feb. 1882.

To the Minister of Finance for the Argentine Republic.
Buenos Aires.

We the undersigned holders of Treasury Bonds issued according to the laws of the 5th of August and 19th October 1876; humbly petition and protest:

1—That by the above mentioned laws provision was made for the issue of $6,000,000 Treasury Bonds, including interest at 9 p. cent per annum, and no other mode was provided for redemption of the said bonds than by tender (por licitacion) under article 2 of the law of the 19th October 1876.

2—That under the said laws bonds for about $5,000,000 have been issued to the public and $1,000,000 given to the National Bank, stating on the face of them, that they were issued payable in accordance with the said laws.

3—That we the undersigned Bond holders, relying on the good faith of the Argentine nation, and with full knowledge of the said laws of 1876, have collectively purchased and now hold said Treasury Bonds.

4—That many of the Bonds were purchased by us in the open market at 20 to 28 p. cent premium.

5—That the said Bonds would never have attained such a premium except for the knowledge that they could not under the said laws be amortized without the consent of the holders.

6—That we the undersigned bond holders have learned with astonishment and indignation that a project has recently been submitted by Your Excellency to the Argentine Legislature, whereby it is proposed to pay and amortize the whole present debt of the Argentine Nation, including the debt created by the said law of October 1876.

7—That the proposed law if passed would work the greatest injustice to us the said bondholders and amount to sheer confiscation of part of our property, it needs no argument to show, for it is manifest that the attempt to compel us to forfeit any excess in the market value of

our Bonds over the sum at which it is proposed to pay them off, would operate with especial harshness on those of us who have purchased at prices above the proposed price of amortization.

8—The majority of us are large holders of other denominations of stocks of the Republic i, e, 1868-1871 loans and Hard Dollars etc, and have been firm supporters of the credit of the Republic during the most difficult times. Consequently it is with deep regret that we hear of this projected measure of repudiation and we feel sure that the injury the credit of the Nation would sustain, were it passed, has not been sufficiently realized by the authors of the measure nor have the antagonistic feelings it would arouse among a large and influential investing circle who would certainly oppose a quotation on the London Stock Exchange to any future loan, been sufficiently taken into account.

9—For the reasons herein before stated, we venture respectfully to request Your Excellency for such an authoritative declaration as will assure the bondholders that the Government will carry out its engagements as expressed in the law of October 1876, and will not without the consent of the bondholders adopt any scheme for the amortization of the Treasury Bonds, other that that specially provided by the said law.

NAVIGATION TO BAHIA BLANCA.

The following highly important documents will interest all shipmasters who go Southward:—

President of Lighthouse
and
Buoys Commission
B. Blanca, March 22.

To the Minister of War

In compliance, as speedily as possible, with Y. E's. telegraphic order, I have the honour to send you some notes on the "Directions for entering the port of Bahia Blanca" through the Channel that is now buoyed.

Although these notes and observations are not very ample, yet, for an intelligent navigator, they are quite sufficient to enable him to enter the port without endangering his ship, and will supply the place of the 'Directions' until the publication of the chart, which is now receiving the finishing touches.

(Signed)
Henry G. Howard.

Note—The courses ('rumbos') are magnetic.

"Directions for entering the port of Bahia Blanca".

A vessel bound for Bahia Blanca, from whatever place, must approach the coast between Point Ascension and Mount Hermoso and keep along in sight of it about 8 miles off till the latter is in full view—an easy matter, as on its summit there is a mast which is 168 feet above sea level and can be seen in fine weather from a distance of fifteen miles.

There is no danger whatever near Mount Hermoso; the roads, which are formed by the sweep of "the North Bank' and the shore, are in the form of a horseshoe: there are no rocks, and the water is 30 feet deep almost everywhere. It is completely open to winds of second and third quadrant, and is not to be recommended as an anchorage in summer or spring, although there is capital holding ground.

Twelve miles from Mount Hermoso, S. 17° E, the first buoy is anchored in 32 feet of water; it is painted yellow and can be seen from five miles distance, in fair weather. This buoy must be left to starboard, and although one buoy after another will be met with, the skipper who keeps his course N. 17° W., allowing for the action of wind and current, will go straight in without the least difficulty, and the lead will never mark less than 30 feet.

The other buoys, which like the first must be left to starboard when entering, are painted red, and their conical shape, 11 feet over the water, some times enables them to be seen at a great distance, owing to atmospheric refraction, although the medium distance between each of them is only 6,500 metres; there are seven of them between the extreme Eastern point of the North Bank and 'Punta sin Nombre' (Namless Point) a distance of 18 miles.

Great care is necessary off the third buoy; It lies S. 4° W. from Monte Hermoso, and a very slight deviation to the West would cause the navigator to miss the channel and take that marked on the chart of the British Admiralty, which joins the buoyed channel at this point.

After passing this buoy the depth increases gradually till the lead shows 8 fathoms, but it diminishes again between the 'Gaucho' and 'Toro' banks—near the last buoy to—6½ fathoms for about 1,000 metres; then again it increases rapidly to 13 fathoms, when any danger from the chain of banks forming the bar is over; from this point the shore of Puerto Belgrano can be coasted without fear, keeping at a fair distance, as it runs out a mile,

In fine weather the masts of the sunken light ship Manuelita can be seen from a distance of 8 miles. She lies at the point marked 'Saco de Gaucho' on Fitzroy's chart, but which is now very much reduced from the colossal proportions the Admiral assigned to it. Half a centuary has worked a surprising change in the whole bar, and it is not strange that 'the Gaucho's Jacket' should have changed also.

Chance has placed the wrecked Manuelita in the most dangerous place for navigators, and she will serve as a beacon, if through any casualty, the buoys should disappear. Her masts show the peril to be avoided, and in conjunction with the tripod placed on the shore near Nameless Point, they will be a sufficient guide for those with a slight practical knowledge of the port.

The buoys mentioned once left astern, two more will be found, one moored on the same parallel as Arroyo Pareja, and the other on that of Punta Alta. Both must be left to starboard. From the second can be descried a mast which is on the Northern extremity of Three Fathom Creek. Passing this at a fair distance, and steering N. W. ¼ N. a false Channel is passed on the starboard, and with five fathoms minimum depth the mouth of the 'riacho' which leads to the anchorage opposite Sauce Chico, or Naposta, is reached. There is a mast on each side of the stream [riacho] and there is no difficulty whatever for vessels drawing 16 feet of water.

EDITOR'S TABLE.

Things were quiet enough yesterday. Corrientes, Paso Hondo and all other topics were eclipsed, at least in British and Brazilian circles, by anxiety for further particulars about the ill-fated Douro and most of her passengers, whose safety yesterday's news left in some doubt.

We commend to shippers and skippers and sheepfarmers and all interested in the future 'Liverpool of the Plate' Commander Howard's report on Bahia Blanca port. 'All the the noble blood of all the Howards' could not render a greater service to this country than Com. Howard has done in laying down a safe course for large vessels into B. Blanca, and we call on the Government to recognize this by promoting him: The science, perseverance and labour required in the work were of no common order, and Commander H. his officers and men, all deserve well of their country.

Our musical readers will find a highly interesting chapter in our Supplement to-day, from 'Our Own' in London. The gifted author of 'Tritone' is in his element when Euterpe is the theme, and he promises us another letter on the same congenial topic. Strange it is that little Buenos Ayres boasts of a kind of Conservatoire, while the capital of the world is only thinking of establishing one.

Our Rio contemporaries announce that the jewels stolen from the Emperor have been found and restored to his Majesty. An anonymous letter to the Chief of Police, full of chaff at the expense of his subordinates, revealed the spot where the jewels were buried in the ground, near the house of Paiva, one of those arrested for the robbery.

We feel pleasure in saluting our little colleague, the *Hurnacan* of La Paz, which we receive regularly. It is a breezy sheet and quite a credit to provincial journalism. It is a moot point, however, if *Zephyr* would not be a more appropriate name for a paper in a place styled 'La Paz.'

According to what we read in our Argentine colleagues, the Pedagogues' first Conference at the Exhibition on Monday did not go very smoothly, owing to the vast majority of the delegates being totally 'unaccustomed to public speaking!' We can hardly believe our eyesight on reading this in a country where nobody would be surprised to see a sucking boy-baby stand up in his cradle and address the nursery legislature in a 'magnifico discurso' on the reform of the Constitution. The Pedagogues, we predict, will soon get over their shyness, and, before they stop, all the papers in town put together will be insufficient to contain the torrents of their eloquence. We feel bound to mention that General Sarmiento, President of the Conference, although in the building, took no part in the proceedings, which seems both curious and significant. We much regret that we have not space to reproduce the splendid inaugural address of Dr. Plaza, Minister of Foreign Affairs, when opening the Conference, as representative of the National Government. It was a really masterly effort. Dr. Leguizamon's brilliant speech also attracted unqualified praise from all present.

The two events of this evening are the English Bachelors' Ball and the opening of the German Section of the Exhibition. At the latter ceremony there will be an imperial musical treat, as the chorus (gentlemen exclusively) includes 80 of the best amateurs in the country,

The *Nacion* has telegrams from Pernambuco with the news by the R.M.S. Tagus to the 24th March. It is not important. The fizzle in Basutoland is a mere flash in the pan and of no importance.

That famous failure, the Mendez Corkscrew Steamer, out of which so much fun was knocked in Standard Court 12 years ago, has been revived in Massachusetts by a Mr. Morse. Grief, not fun, is likely to be the end of the business in that practical quarter, and re-Morse awaits the promoter. Morse beats Mendez by five knots in the speed he promises, 25 per hour. Our esteemed friend, Mr. Mendez, thought it would be unnecessary to go faster than 20 knots.

Here's an aristocratic sop for those Cerberi who falsely declare that the *Standard* is opposed to the Electric Light on any other ground than that of its too utterly ruinous effect on ladies' complexions. We are quite ready to be cremated alive in the cause of science, but will stand up till our last editorial gasp to save the ladies' complexions. This is the sop:—"The English Dukes are taking to the Electric Light. The Duke of Sutherland is going to have Trentham illuminated with it, the Duke of Westminster contemplates introducing it at Eaton Hall, and it has been in operation at the Duke of Northumberland's seat, for nearly a year."

Full particulars have come down from Rio Cuarto about the arrest of a gentleman at the hymeneal altar, just as he was about to pronounce the irrevocable words 'for better for worse.' The whole affair sprang from a sale of cows and some remarks 'denigrante de su dignidad.' The old story. 'Dignity' causes a deal of woe in this country. However, it was most undignified of the police to arrest a half married man.

Everybody remarked yesterday how quiet and orderly the city is with both President Roca and Governor Roach absent. It was as if in London, where but an infinitessimal portion of the population know or care a fig where the Government is so long as they are sure to find a policeman when they want him.

A policeman caused another ugly scandal at the Exhibition on Monday night by striking a moderately drunken man twice across the face with his whip, A gentleman who saw the outrage called on the Commissary to have the offender arrested, but the official contented himself with noting down the gentleman's name and address. What is there in the Exhibition that seems to provoke some latent brutality in the guardians of order. Perhaps they dislike the progress of civilization and sigh for old times.

The Electric motor for tramcars has been most successfully tried in London. It saves 50 per cent expenses. The City of Buenos Aires Tram Company should write home. and see about this. Horses being cheap here, the money saving might be less than in London, say only 30 per cent, by using the new motor but this is still a great inducement, and the saving in noise, dirt, cruelty, bad language &c. &c. would be truly enormous. By all means let us have the new Electric Motor immediately, if not sooner.

The latest telegrams from the West Coast announce that peace is all but made between Chile and Bolivia, and there is no longer any doubt about it.

Everybody concerned seems to be dissatisfied with the wind-up of the Volpi business, at least so the Montevidean telegrams lead outsiders to suppose. It is really astonishing how things go by contraries in this favoured region. The best thing Volpi and Patroni can do is bid Montevideo good-bye and come up to the Exhibition. So long as they are down there they will be made pegs of whereon to hang a lot of noise and nonsense.

Misfortunes never come singly. On the heels of the loss of the Douro comes that of the Pasli, with railway materials on board for the Argentine Government. She was lost in the English Channel.

The Jupiter, from Montevideo, landed an enormous crowd of visitors to the Exhibition yesterday morning. We have never seen hotel-keepers in such high spirits.

Our esteemed colleague, the *Cruzeiro* of Rio, was nicely taken in, or perhaps took itself in, by a telegram dated from Montevideo, announcing an 'estruendosa revolucion' in Montevideo, the landing of an *Argentine* General named Isturriz at Maldonado with 10,000 men, 6,000 Rio Grandense cavalry over the Oriental frontier, etc, etc. This may be called bursting the telegraphic boiler with a vengeance.

Lord K., whose popularity was not excessive in a certain Scotch town, having refused an importunate beggar, she renewed her application with—'Now, me lord, if ye'd just give me one little saxpence, I could treat every friend ye have in the toon."

A French milliner, residing at 15 Calle Peru, was found dead in her shop yesterday morning. The place had been closed for three days.

Our fair readers will be pleased to learn that a series of balls in the concert-room of the Exhibition has been decided on.

Havas where art thou? Everybody wants more details about the Douro's loss. Here is a chance for you to win a crushing telegraphic victory.

Yesterday, twelve years ago, Urquiza was murdered and the first Jordan revolution broke out in Entre Rios. It seems but a couple of years ago. Verily 'tempus fugit.'

Patacons	25.—
Cedulas A	106½
Do E	86½
National Bank Shares	116

The market opened strong this morning for stocks, and business ruled much brisker than yesterday; the brokers of a well known Argentine capitalist are buying bank shares which gave a general movement in that stock, whilst some Cedulas Series A had to be bought to pay off a mortgage, which at once strengthened prices. Many think that Cedulas A must advance in the winter, as the emission is stopped and the stock is all very well held. In fact Series A is now felt scarce in the market, and for the temporary employment of money during the winter will necessarily rule dear, unless the Bank either here or at its new branches reopen the issue.

The BankShare market opened with a bound to-day and at 1 o'clock the outside King was seen to enter the hall; all eyes were upon him, a nod or a wink from him would put the market up or down 5 o/o, his movements, however, showed nothing, but soon after prices stiffened, the well known band of brokers for the Syndicate began buying, and then the whole ring followed suit. The brokers who speculate however are so desperately nervous that they close every purchase or sale the instant they can do it at a profit of a half or a quarter per cent. Disturbed as is the political state of the country by the Corrientino revolution, we never remember a time when politics has affected the Bolsa; as for gold, no politics touch the market now. A lot of exchange gold was offering all the morning cash and could not be sold, so the holders did the next best thing and sold for end of month at 5 cents profit. Money, as we mentioned in our last, is accumulating and must go into stocks; some large amount of bills given for land purchases are now falling due, and there is a push to sell the land; a man with ready money can buy one thousand, or indeed two thousand, leagues of land, good estancia land, as readily as he could buy a box of matches in the street, but there is far too much land offering in the market for its capabilities, and only those who have not gone beyond their depth are safe.

Immense importance is attached to the project of law just sent to the Provincial Chambers by the Provincial government. Few had any idea that the new capital of the Province was to cost so much money, the schedule of outlay fairly staggered the market; here are the items:—

$ 9,057,637	amount due by Nat. government to Prov. government.
20,000,000	Product of sale of lands in new capital.
20,000,000	Amount to be refunded by National Government for Riachuelo.
20,000,000	Sale of public lands in Province.
1,000,000	Amount destined for purposes by law July 1881.
1,000,000	Sale of public building in the city of B. Aires.
$ 71,057,637	Total.

Here was a figure of over fourteen millions sterling for our new Provincial capital—no wonder the Bolsa grined at the paper. The figures we quote from the 'Nacion' are all wrong however. The total is only 16 millions, not 77.

We publish in our leading columns the protest of the London Bondholders that has been presented to our talented Minister of Hacienda Dr Romero. We also publish the notice from the National Credit Department of the amortization of the Bonhonal Bonds, and the much disputed Treasury notes; it will be seen that at last the credit office has determined to proceed with the amortization.

It was said on Change that the National Minister of Hacienda has received orders from the Vice-President to pay over to the Nat. Bank the 450,000 pats, ordered by Congress, and that the amount of judicial deposits now going to the National Bank is extremely large.

The sales at the ring were as follows:—

Gold—
For May 31st 75,000 25.05
For June 30th 20,000 25.10
For July 31st 5,000 25.10
Sales, 110,000.

Cedulas—
For cash A 5,600 at 106½
For cash E 30,000 at 86½–¾
Sales, 35,500.

Nat. Bank Shares—
For cash 280 share at 114½–¾–115
For April 30th 4,050 shares 114–½–¾–¾–¾ to 115–¼–½
Sales, 4,330.

There were no sales made to-day of Deuda Amortizable, and brokers still ask in case of sale what money is the price quoted. We suppose fuertes.

A fine property in the Misiones, 5 leagues front on the Upper Uruguay with 5 leagues depth, three sides bound by rivers, is offering in the market at 1,300 pats per league. The property is very far up and above San Borje, but the lands are the best in that rich district.

Rosario is doing a splendid trade, as appears by the Custom House returns; its receipts last month were 207,093 pats. We remember when the Custom House of B. Aires did not give more in a month. The following is official list of the Rosario exports for March:—

Hides	kilos	78,379
Wool	do	441,700
Bones	do	979,024
Horns	do	18,200
Fish oil	do	1,170
Ostrich feathers	do	398
Hay	do	1,068,846
Linseed	do	192,816
Copper	do	327,590
Solder	do	68,841
Silver ore	do	154,283
Silver in bar	do	6,803
Lead	do	3,610
Alfalfa seed	do	136,129
Honey	do	9,043
Dry fruit	do	13,714

In minerals the trade of Rosario shows rapid growth, during March 3,376 sacks of minerals:

714 bars copper
1497 bars tin
664 bars silver
238 bars bismuth came down; also
22925 sacks wheat
7017 bags lino
622 bags barely.

At afterhours there was a crowd in the liquidation room and prices for National Bank Shares rose to 116, at which rate some 200 sold; about 500 then sold at 115¾, when prices dropped to 11½, where they held. About 4 o'clock one well known broker sold in one lot 2000 shares at 115½ with 10 o/o guarantee deposit, the lot was purchased by the broker of a well known outsider; the sale caused much attention and many think that it was a 'gato,' but others report it a regular business transaction. The market for Shares closed at 5 o'clock hard at 115½ buyers, sellers 116. The general feeling of the market is upwards.

There was great talk on 'Change about the Douro. Had she gone down this time last year, a wide circle of River Plate friends would have perished, as Messrs Forrester, Drysdale, Gibson and others were on board.

Strange fact, Mr Lisandro Billinghurst has travelled in 7 steamers and everyone of them have been lost; he of course sailed in the Douro.

Large sales of salted hides are reported in Montevideo, they will be found in the telegram.

A sale of Argentine Bank certificates at 15 per cent is reported. What a dreadful shave!

In the Plaza Once not a single pile of wool left, everything sold and no arrivals to-day from outside In the South Market since yesterday there is a great activity and large sales of wool; the stock of wool left outside in the camp is estimated at about one million of arrobas.

Rather good news for the farmers; we hear that this winter the graserias will begin working and preparations are already being made. The stock of capones in the camp they say is very large.

The sale of 100 Lincoln sheep on the Carril estancia, Lobos, at 250 m/c, is reported, Mr T Kenny buyer.

Cattle 'al corte' are now selling in the far south at 20o m/c. Mr Urquiza has bought about 1000 head, 30 per cent novillos, at that price.

Exchange was done to-day at 49½, but some drawers hold out for 49⅝, few takers. News from Rio to-day gives exchange rising there, Bank paper 21½, coffee active.

The R M S. Derwent sails on 20th; she is engaging cargo and has many passengers engaged. The Gemma Cumiarti troupe go in her.

Calle San Martin was completely blocked up this afternoon by Messrs Baltar & Quesada who were receiving splendid Lincoln rams and English bulls in their deposit in front of the Bank; some of the rams wanted to enter the Provincial Bank.

The news from the sheepfarms in this province is very favorable, all the flocks are lambing strong, and the season is so far excellent.

There is hardly room in the papers for the cargo manifests of the steamers entering, the import trade must be extremely active, and the receipts of the Custom House are enormous. We believe the Exhibition has much to do with this remarkable trade development.

Mr Altgelt, in his wheat circular for the week ending April 8th, reports no arrivals, no sales, owing to the holidays. Flour very weak, and the Sta. Fe millers trying to send their stocks down to this market. It looks to us as if we shall have cheap bread this winter, old flour selling at 22½ m/c per ar. The new maize is now coming in and prices look falling, a large business we anticipate in this article, splendid harvest. In lino very little doing, and the best selling at 10 to 12 m/c on board.

Parties intending to exhibit animals at the Exhibition have to 26th inst.; this department of the Show is rather behind-hand.

The city is filled with strangers, and the steamers and railways come loaded with passengers; we never remember the city fuller than at present.

They say that great disclosures are at hand about the Corrientes Revolution, which will disclose what a wretched rotten business the whole affair has been. The publication of the scandal may do good, but we adhere to our doctrine, if we want to stop such revolutions, we must establish the punishment: Every province guilty of revolution should be federalized; this would stop and stamp out the element that checks our progress and ruins the fair name of the country abroad.

The loss of a steamer laden with railway materials for National Government is reported they were insured for £18,000 2 locomotives gone to the bottom and intended for Andine railway.

Ten coupons now over due on the Municipal Bonds, no wonder that the holders are impatient and talk of holding a meeting on the Bolsa. Even the money voted by Congress for the payment of those coupones has never been applied to the purpose.

To-morrow the machine department of the Exhibition will be opened, the town is filled with engineers. The French Consul and the President of the Industrial Club will officiate; the ceremony promises to be very grand.

No telegrams in to-day from President Roca, the news is, however, that the rebellion is over and Mr Gallino has been re-established in his post of Governor; the rebel forces besieging Monte Caseros laid down their arms on a summons from the Minister of War. Commander Casco also laid down his arms; he held out against the rebels to the last, some few houses in Monte Caseros were sacked before telegram arrived.

The Spanish barque Agustina Calzada with timber from New Brunswick, has arrived at Montevideo, having suffered greatly in the storm, her decks washed by the waves, and one sailor lost.

Some large sales of land at Los Olivos spoken of, some think the capitalists have a view on that smiling suburb.

Governor Rocha will, we learn, proceed to Bahia Blanca and have a good look at the place.

They say that the Southern Railway people in London have concluded their arrangements for the freight on all materials to be delivered at that port. Governor Rocha ought to move the port to Monte Hermoso; it would be a capital improvement and save the railway Co, lighters, &c. as the steamers could discharge alongside the bank. The new branch of the Mortgage Bank in Rosario will soon be arranged. Mr Casado has been named by the Government of Sta Fe to act in the matter.

The exhibition at Baltar & Quesada's of articles of French art from Paris has surprised the town; the auctioneer's patio is like a hall of the Louvre, whilst the rear of the yard where usually bulls and rams and horses are kept, is now like the stage of the Colon when "Robert the Devil" is given. The place was as thronged to-day almost as the Continental Exhibition and the auction which began last night was splendidly attended. Never will the Matrons of Buenos Aires have a better chance to secure Sevres China for their houses than at present, and we invite everybody in Buenos Aires to walk down and see the show before the things are all sold. If Messrs Baltar & Quesada's are so deficient in their arrangements as to have no guide at the door to show the ladies around, we should be only too happy to meet the want. The bronze statuette of the dying Napoleon the First, the wonderful old article of Luis Quatorze brass, the Count de Chambord servers for the dining-rooms of the great, and the old cups and saucers hung along the walls, all form rare attractions for the wealthy ladies of Buenos Aires; as the auction stands until Wednesday night there is still a chance for our lady friends to come and see for themselves. The articles on exhibition have been sent out from Paris to be sold in this marke, and as it is probable that they will go cheap, we hope that some of the English drawing rooms in Buenos Aires will secure a portion of these articles of vertu.

We call the attention of our maritime readers to the paper which we publish in another column concerning the navigation of Bahia Blanca; as the paper is official it is all the more important and will interest many of our large steamboat owners in Europe, as it is more than probable that in these months cargo will be offering in Europe for Bahia Blanca, and very few of the captains know anything about the navigation of that port. We beg, therefore, that the agents of the steam lines will kindly favour the owners at home with copies of this all important paper. There is not much known in Europe about Bahia Blanca, although numerous foreign steamers sail along its Coast, and we have not forgotten when the 'Patagones' broke down that neither her Commander nor any of her officers knew there was a port at Patagones or a line of telegraph between Bahia Blanca and Buenos Aires. Such ignorance on the part of Captains of steamers sailing along that Coast is most reprehensible, and the Admiralty and Board of Trade might look into the matter.

We must compliment Mr Green, the agent of the Royal Mail, on his great attention in sending to Rio to obtain a telegram about a steamer that was not his and did not sail from this port. The anxiety about the Douro in this market was certainly very great, and Mr Green deserves every praise for his exertions to allay this anxiety.

Friends in the South must not forget that on the 2nd of May the Provincial Government will sell several lots of public land near Bahia Blanca and facing the sea. The land adjoins the estancias of Mr Newton, Linares and Diego Gonzales. We rather think that they come up to Monte Hermoso, which may yet become one of the most valuable points on our coast.

The magnificent quinta Del Mirador in the Lomas de Zamora will be sold at auction by order of the Court on Sunday 23rd April. It is one of the finest properties out there and within 5 squares of the station.

As it will much interest a very large portion of our readers to know the accepted and adopted route of the B. Aires Great Southern Railway to Bahia Blanca, we give the following as gathered from an official source and hence may be relied on. Starting from Azul the line runs straight to Olavarria, a distance of 27½ miles, from thence to a point bearing South of Guamini, distant from that fort 66 kilos or say 13 leagues, thence in a straight line to a point distant 62 kilos from Carhue, say 12½ leagues; here the line makes a great curve and facing southward passes within 36 kilos or 7 leagues of Puan, it then makes straight for Bahia Blanca, crosses the Sauce Chico within a very few leagues of Sierra de la Ventana and finds its terminus at the town of Bahia Blanca. We hold on our office table a pen and ink plan of the line, which is at the orders of our subscribers who care to inspect it; the route from Olavarria to Bahia Blanca is marked at 213 miles, and from Olavarria to Azul 27¼ miles, making a total for the extension of 240½ miles. We opine, however, that the road will not stop at the town of Bahia Blanca but will be carried on to the port or, perhaps, to Monte Hermoso.

Venderemos al mejor precio al contado y sin retirar lote las 3 yeguas a que nos referimos, respecto de lasque solo decimos (haciendo su mejor elogio) que, son propiedad del famoso Stud Las Barrancos del Sr Don Patricio Reid, regentesado por el Sr D Diego Church.

Los animales que hoy ofrecemos, debieron ser vendidos en el gran Stud, no pudiendo hacerse asi por razon de la lluvia que desgraciadamente interrumpio la operacion y ellas son las que en el catalogo de Las Barrancas, se encuentran senalados con los num. 53, 135, 136 137, 139, 141, 142, 143, 144, 145, 146, 147, 150 152, 154, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, y 169.

Al anunciarlas hoy, llamamos la atencion de los aficionados a buena sangre en animales de carrera y muy especialmente a todos los Sres criadores que deseen poseer los mas lindos animales que existen en el Rio de la Plata.

Las yeguas son todas ellas preñadas y con cria al pie, y han sido servidas por los famosos padrillos del Stud Sutherland y Joung Fritz y estaran a la vista en el parage indicado el dia del remate desde las 5 a.m.

LONDON LETTER.

(From our own Correspondent.)

THE ROYAL COLLEGE OF MUSIC

Many of your readers will be interested in this subject. The proposed institution and its history up to its present favourable position, under the immediate patronage of the Prince of Wales, are in some respects representative of our national life. A few years ago it was thought beneath the dignity of British manhood to confess to any practical knowledge of music. Clergymen, professional men, and men of science educated in a limited curriculum, comprehending a smattering of the humanities and a little of mathematics, were pleased to own with an air of mock lament that they were ignorant of music. What they meant to impress upon their hearers, and particularly if they were ladies, was that the subject was not sufficiently intellectual to occupy their capacious minds. At the same time these wise persons would condescend to speak lovingly of paintings and sculpture and the drama, but in a way and with a fatuousness that made anyone who really did know something of art only too thankful that music at least had been saved the desecration of being thus handled by solemn and pretentious mediocrities.

Within the last few years certain discoveries in acoustics have travelled from Germany, and their importance has been slowly acknowledged by the scientific world in England. The higher applications of those discoveries were unintelligible without an elementary knowledge of music. Our scientists in that branch of inquiry found themselves outrun by their continental brethren, and it became suddenly the fashion to include the elements of music as a part of physical science. Again, one of the natural effects of thirty years of railways and steamers was to gradually convince the Briton that soap was not exclusively used in this country and that what we are pleased to call 'German bands' were so adapted to our native tastes that they were really less a natural product of Thuringia or the mines of Bohemia than of the Hoe at Brighton or the Sands of Ramsgate. In short we began to see our many little failings as compared with other countries and we set to work to form technical schools of design in manufactures, to build gigantic and splendid hotels, to establish restaurants where delicate tastes could be respected, and delicate ears need not be assailed, and appetites destroyed by such horrors, such daily monotonies as 'Chop and potatoes for two, two beefsteaks underdone, a pint o'stout and a 'foller' of pork!' In these matters, and in household furniture and other minor arts we began to make considerable progress; and portraits and busts of ourselves and friends duly appearing at the Royal Academy Exhibitions, we were satisfied with our attainments in the fine arts, and thus, little by little even the unmusical came to comprehend that having advanced so far in the other arts it was time that something should be done for music. It was seen that little came of our boasted grand festivals and concerts, when the choruses are yelled out by hundreds of voices drowning not only the orchestral instruments, but a great bellowing English organ to boot, worked by steam power. It was found by the travelling world that the same music was given abroad with more effect by less expenditure of lung-power; and that even in our strong points, ortorio and church music, we could not compare with the more musical-toned organs of continental churches or with the well trained and softer voices of Italy. As for native musical and dramatic composition, it was confessed we had literally nothing to show. Moreover, out of London a resident orchestra is almost unknown, and even our London orchestras are mostly directed by foreigners. All this and much more is now acknowledged; but the last to be persuaded of the natural inferiority were of course the native musical professionals. Hence the first difficulty in establishing a Conservatoire, or something similar in the shape of the proposed Royal College of Music. There were already two schools, the Royal Academy of Music in Tenterden-street, Hanover square, and the recently established Training School at Kensington, an offspring of the first International Exhibition from which under the direct superintendence of the late Prince Consort there sprang the now existing schools of design and art museums in that suburb of the metropolis.

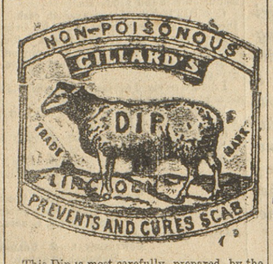
When the educated world in England commenced to see that music was not simply an amusement but is as it was in ancient Greece, and has been in all civilised countries, an essential part of education, the first idea was to amalgamate the two existing schools at Kensington and in Tenterden-street. The Prince of Wales, the Duke of Edinburgh, and many influential people spent some years in endeavouring to bring about that amalgamation. But all attempts were thwarted by a not unreasonable jealousy on the part of the Royal Academy of Music. In those days the Royal Princes were younger than they are now, and so was Mr Arthur Sullivan the composer, and they were intimate and enjoyed themselves together with music and other matters. Sullivan was made principal of the Kensington Music School. It began to decline and was really hard up. So was Sullivan. When in 1878 another attempt was made to amalgamate the two schools, the Royal Academy, which as a little republic of professors was prospering in its own way, was not disposed to be absorbed to save a rival and tottering institution, because it was patronised by princes who would like to do something for 'poor Sullivan.' Since then Mr Arthur Sullivan has become enriched by 'Patience' and perseveranee and has thrown up the Training School and has gone to Egypt for his health. The idea of amalgamation has been abandoned, and the princes and their supporters determined to appeal to the Government for a subvention and found a Conservatorium or College of Music. But the Government had no money for musical conservatories; and the matter again hung fire. In the meanwhile the people in the city, more prompt and business-like, formed with great success, and in a marvellously short time, the Guildhall School of Music. It is just possible that the Prince of Wales, who of all the royal brothers is the most popular and in his way the most business-like, was annoyed at seeing city people succeed where the royal family and so many distinguished people were floundering in failure. So he took the subject in hand vigorously. The Dukes of Albany and Edinburgh and Prince Christian held a preliminary meeting at Manchester some weeks ago which was successful as a demonstration; and then the Prince of Wales made a bold appeal for support to the nation. He invited to St James's Palace the Lord Lieutenants of all counties, the Mayors of the towns, all distinguished amateurs, and the representatives of the musical profession, from the Doctors of the faculty down to the musical reporters of the daily press and even to sellers and makers of musical instruments. The whole palace, which has recently been redecorated at a cost of £18,000, was thrown open to the guests invited. No distinctions of rank were made. Dukes, Earls, priests, musicians, Lords Lieutenant, Cardinals, ambassadors and piano-forte makers, sat down together in the Banqueting Room or wandered into the throne-room or court-room where on presentation days, the ladies are penned in a sort of 'corral' of newly gilt railings, until their time of presentation arrives. The new decorations are gorgeous, but not in very good taste. The only room of interest in St James's Palace is one looking into the Park and in which James II. might have yesterday sat moodily awaiting the time of his flight from London; for the old Tudor fire-place and the armour and the tapestry on the walls seem only a little too clean, but in other respects much as he might have left them when he passed through a back stair-case, and made for the Thames and the Continent.

To the distinguished crowd in the banqueting room the Prince of Wales and the Duke of Edinburgh read excellent addresses. The Dukes of Albany and Cambridge and the Princes Teck and Waldeck were present. Speeches were made by Mr Gladstone, Sir Stafford Northcote, the Archbishop of Canterbury, Lord Roseberry and the Lord Mayor. You will see all the speeches in the *Times*. By far the best and the most genuinely humorous was that of the Primate who, although an old man, looks and speaks very like Irving the actor. When he turned to the Prince with a mock air of confiding a secret, and said: 'Your Royal Highness will hardly credit that the humble individual before you has the power of making a doctor of music,' it was a piece of inimitable humour and of acting. Of course, with the exception of the Royal Princes, not a soul on the platform knew anything of the subject. In these cases it is a rule, either in speaking or writing a leading article, to say something funny.

Mr. Gladstone, who is a bit of a musician, told some good tales, but Sir Stafford Northcote, who was very well received, told, in his droning way, one or two still better. Sir Stafford spoilt his speech by suddenly remembering he had followed the Prime Minister, and that as leader of the Opposition he ought to remind the Premier that he had overpraised Mr. Hullah, the musician, and had not given sufficient credit to the Prince for the great movement in regard to music, so he ended with the doxology, now to the Queen, the late lamented father, the Prince of Wales and all the Royal Family. The Prince, who hates humbug of any kind, did not seem pleased with the doxology, and took especial pains to return thanks to the Prime Minister without altogether forgetting Sir Stafford. What amused me was the singular variety of accent amongst so few men, and all of the highest positions, &c.—barring the Lord Mayor—and cultivation. The Archbishop's accent was that of the theatre: the Royal Princes speak the accent of the highly respectable but rather dowdy Anglo-German court of former days. It may still be heard spoken by old-china satin-clad dowagers in country houses. The Princes never open their mouths very wide, and never pronounce the letter 'r' except with a slight and general 'roulement.' In other respects their accent, if not perfect, is remarkable for the good quality of not representing any particular district, at the same time it is not the true southern and pretty accent of society. Indeed, the only man who did speak with anything like that accent was Sir Stafford Northcote. Mr. Gladstone recalls, by his pronunciation, any of the Tobins, Holts, Erles, Roscoes and other old gentlemen of Liverpool of 40 or 50 years ago. Lord Roseberry has no Scotch accent at least, but his English is not refined—indeed, it is a little rough. The Lord Mayor, I was pleased to note, did not leave out his aitches or put them in where they were not wanted, and he spoke a very fair, dont-care-a—— sort of middle-class Cockney English.

After all this, you do not know anything about the Royal College of Music. Well, I will tell you another day: it is a long subject and we shall have plenty of it, for the Prince is bent on it. He sends the Duke of Edinburgh into the city at the end of this week to talk to the Corporation and get a good sum of money out of them. He wants £300,000. He has got about £30,000 already.

GILLARD'S
SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.

From Mr. JOHN J. MASON, Capilla del Señor, June 29, 1881.—"The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gillard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From MR. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infested, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fullly determined for the future to use no other remedy."

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f. 2000 ni el prestamo menos de $f. 600.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco, El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando si al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f. 50 que es el minimum de las que emite el Establecimiento.

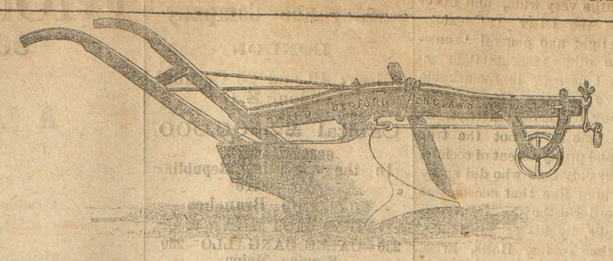
HOWARD'S CELEBRATED PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exteasively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d., boxes, 6d. and 1s. each.
